

## adjustable male stud adapter series C-EGE-R-ED-71

|                       |                                                                                                                   |
|-----------------------|-------------------------------------------------------------------------------------------------------------------|
| design                | tube fitting, with sealing cone and o-ring                                                                        |
| male thread           | 1/8...1 1/2" BSP, with elastic sealing                                                                            |
| outside tube diameter | 6...42mm                                                                                                          |
| material              | stainless steel AISI 316Ti                                                                                        |
| seal                  | FKM                                                                                                               |
| according standard    | EN ISO 8434-1 (DIN 2353)                                                                                          |
| medium                | neutral liquids and gases which do not affect the used material                                                   |
| medium temperature    | -25...+200°C                                                                                                      |
| operating pressure    | nominal pressure according to table to 50°C, above 50°C 4% pressure reduction, above 100°C 11% pressure reduction |

### dimensions

| series | PN<br>[bar] | diameter of tube | m      | G     | L1   | L2 | CH1 | CH2 | type              |
|--------|-------------|------------------|--------|-------|------|----|-----|-----|-------------------|
