

dual plastic hose made of Co-polyurethane series CP-02

basic material	co-polyurethane with black PVC coating
temperature range	-40...+80°C
operating pressure	vacuum -0,87bar to specification in table at 23°C, pressure reduction factors see table
outside diameter tolerance single hoses	±0,10mm
tolerance material thickness single hoses	±0,10mm
application	compressed air uses

outside diameter single hoses [mm]	inside diameter single hoses [mm]	max. operating pressure at 23°C [bar]	length of rolls [m]	colour	type
6	4	19	1000	natural / black	CP-6/4-02N-1000-D
6	4	19	1000	blue / black	CP-6/4-02V-1000-D
8	6	16	1500	blue / black	CP-8/6-02V-1500-D

pressure reduction factors

temperature range	-40...+23°C	+30°C	+40°C	+50°C	+60°C	+70°C	+80°C
operating pressure in % of maximum value	100%	87%	74%	64%	57%	50%	43%
